## ADDENDUM NO. 2

Invitation No. 16-100731 "Conventional Truck Cab & Chassis with 20 ft. Flatbed Dump and Hydraulic Crane with Grapple CNG Engine Driven" is hereby modified as follows:

1. We have received questions pertaining to this Invitation. The questions and their resulting answers appear below:
  - A. Question: Do you know if this truck will be replacing one that is similar? If so, what's the previous dump body type the customer has used?  
  
Answer: We currently have Builtrite handler grappler units and the dump bodies are custom built and they will be replacing similar units.
  - B. Question: On Page 22., Section F. 1., The automatic Allison HD4560P Series, 6 speed transmission is no longer offered by Allison. We show that the 4500RDS 6 Speed with PTO input is now offered. Could you please clarify that this is being requested? I am sure this is an old code.  
  
Answer: Bidders should bid what they have available and equivalent to the requested transmission. If the option code has changed, then please bid what you have available.
2. All other conditions remain in full force and effect.
3. It is the responsibility of each bidder to ensure that he/she is aware of all addenda issued under this ITB. Please sign and return this addendum. You may call me at 404-687-2796 before the bids are due to confirm the number of addenda issued.
